Software protection

All soft are registered for one computer. You can use 15 days the software without any limitation, then you will be requested to register to info@geo2x.com using the email. You will receive a new EXE to replace the demo version. This version can be re-installed even if your crash your hard disk. To use the software anywhere, the best solution is to order an USB dongle.

W_GeoSoft/Geo2X Sarl

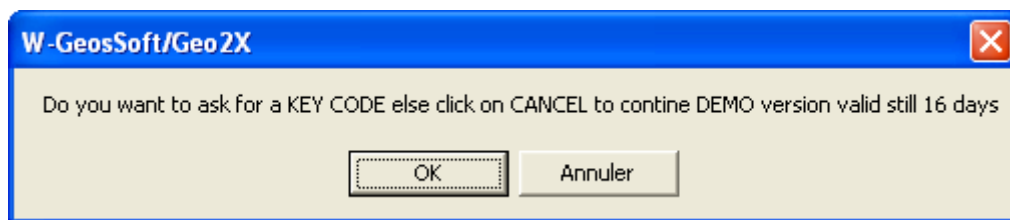

Rue du Centre CH-1377-Oulens, SWITZERLAND

Phone ++41 76 383 75 72

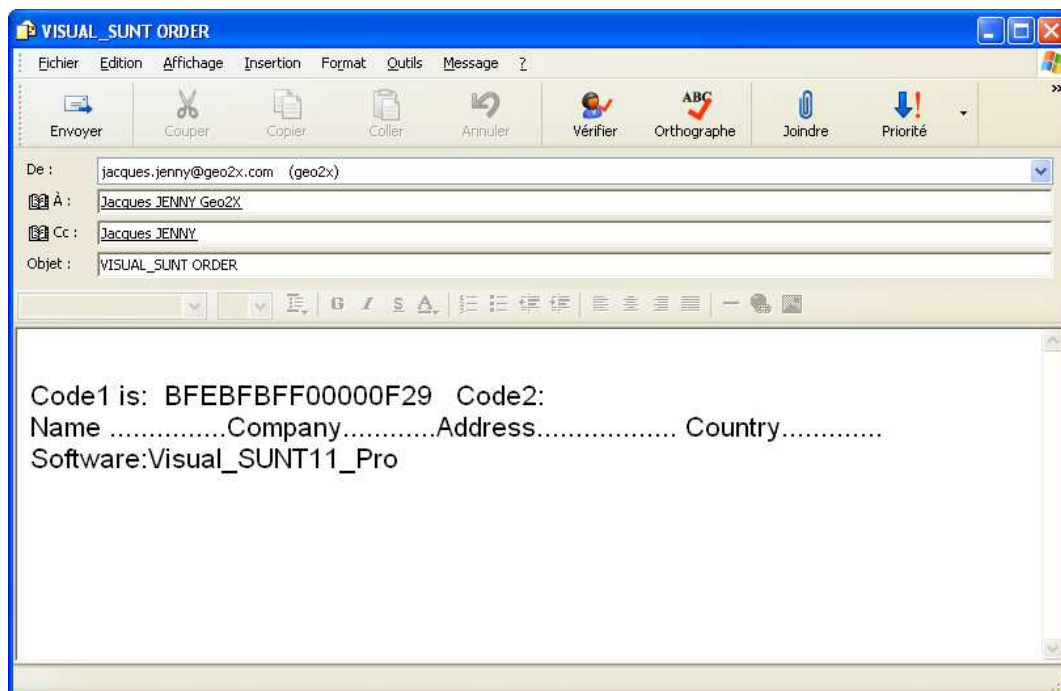

Fax ++41 21 881 48 00 info@geo2x.com

How to receive software validation SOFT KEY

1. Launch the soft, *START green button / All Software / W_Geosoft / your soft*

2. Click on OK

3. Fill and send us this email.
4. You will receive quickly a new EXE file,
5. Copy / Save this file on your computer,
6. Launch this EXE file to run your application. Keep the EXE in a safe place, you will need it to reinstall the soft on your computer.

This EXE will activate your soft only on the computer from which you sent us the email !

You can also display Computer codes using the **CODE_INFO.EXE** utility found on the program folder.

If you need to use the soft on your laptop, order an USB dongle.

For USB Owners

Install the software from CD-ROM, the soft can be installed on many computer but will run only when the USB dongle is plugged !
